Use of spatial data in your organisation

This questionnaire was created as part of "The model of rights management and sharing the core spatial data sets including pricing" project of the Technology Agency of the Czech Republic implemented on behalf of the Czech Ministry of the Interior in connection with the GeoInfo Strategy Action Plan approved by Czech Government Resolution No. 539 of 8 July 2015.

Please reply to the following questions from the point of view of your organisation. If you have any questions, please do not hesitate to contact, RNDr. Karel Charvát (charvat@ccss.cz), the principal investigator at the Czech Center for Science and Society.

On behalf of the entire investigation team, we thank you for your cooperation and time spent filling in this questionnaire.
